

Seminars

We run seminars every few months around Australia to show restaurant owners exactly what how to increase their revenue fast. The information is based on ten years of work undertaken with all kinds of restaurants from famous hatted restaurants to small regional mum and dad businesses (and everything in between). **We focus on strategies to increase new business, repeat visits and increasing dollar spend each customer visit.**

Over the last decade these events have been attended by thousands of Restaurateurs in Australia in New Zealand, Great Britain and in The Philippines.

To get advanced notice of when the next seminars are taking place [please drop us a line here](#). We will keep you informed and send you some great tips too so you can start making progress before you even come to the seminar.

Best wishes,

Howard and the Team.
